WAITRESSES GOT HIS \$5 TIPS SAY CONTESTING HEIRS

Eccentricities of Capt. John Calvin Martin Figure in Dispute Over Two Wills.

When the two wills of the late Capt John Calvin Martin, the Martindale coa baron, who died in Riverdale Sanitarium on Sept. 2, come before the Surrogate's Court for probate on Oct. 30, evidence of the most startling eccentricities on the part of the multi-millionaire who drew the two instruments will be submitted by contesting heirs.

That Capt. Martin had a negro revivalist on his staff during the last twelve years of his life, that he had a habit of wanting to buy almost every hotel which sheltered him for a night and that he distributed \$5 tips to blooming hotel waitresses in Portsmouth, N. H., were some of the deceased coal magnate's idiosyncracles which will be

Capt, Martin's first will, made March 19, 1908, and his second, drawn as lately as July 31 of the present year, were both submitted for probate Monday Formal notice of a contest over the second will was filed yesterday by counsel representing Daniel E. SAY HE WASN'T ABLE TO MAKE SECOND WILL.

Judge L'Amoreaux and Mr. Wing will allege that since Capt. Martin died in a sanitarium a little more than a month after making his second will proof of his incompetency to set his hand to the second instrument will be easy to establish. To this allegation Attorney Bartlett replied to-day:

"It is well known that Capt. Martin had periods of insanity prior to the making of his first will. There was nothing at the time of his drawing the second will to indicate that he was not a well man, mentally and physically. Contest of the first will on the lea? Mr. Bartlett told an Evening World reporter the circumstances surrounding his meeting with the coal baron at Fortsmouth in July.

"Capt. Martin came to Portsmouth with his sister, Mrs. T. R. Varlek of Yonkers and the Rev. William H. Jeffries, Archdeacon of Virginia, a connection by marriage. They stopped first at the Hotel Champernowne and later at the Sinciair Inn. Capt. Martin came to the legal firm of Page, Bartlett & Mitchell, of which I am a member, and said he wanted to have us handle his business for him. He had just sold his Martinsburg coal mines at Altoona for something like \$300,000 through Judge L'Amoreaux, his attorney, and the money was lying in New York banks on call merely.

Then, because his wife had died since the drawing of his first will he said he wished to make another. I acted in perfectly good faith in draw-ing the second instrument for him, for seemed to be perfectly sound ment

"But a few days afterward he began to show signs of what I might call aggravated business enthusiasm. He wanted to get back into business again and talked incessantly of making investments. Then, too, he began to be reckless in the expenditure of his money. First he thought he would buy the Sinclair Inn. When I dissuaded him from that he wanted to give the night clerk at the inn an education and was enthusiastic for setting aride a certain husiastic for setting aside a certain

"He began to make sifts to the attendants in the hotel. He would give the serving maid at his table a 5 tip at the end of a meal. He bought little presents for everybody in sight.
"He also sent a telegram to a negrorevivalist who calls himself the Rev. Ponton and who lives at Jackson, Miss., telling him to come at once to Portsengouth to consult with him on important missionary work among the negroes of missionary work among the negroes of the South. "Really, you know, woman was the original progressive. Back there in the Garden of Eden, Eve listened to the serpent not because she was weaker or wickeder than Adam, but because she was more curious and intelligent. I can imagine her taking a placid survey of the Garden scenery and then saying to herself. To be sure, this is all very well, but how do I know there may not be something better? And if Eden is just another name for stagnation I am sure it will bore me!"

All was quiet and peaceful when a reporter called at the De Mott home for particulars of the "elopement." Grandpa De Mott is hard of hearing and most gracious. This is written under the spell of the Massenet Memorial Concerts being given this week in the Wanamaker Auditorium—the first of the kind in New York.

One need never apologize for being under the spell of music-for giving oneself wholly up to music-for music, as John Philip Sousa said, is the one art that can never be depraved to the hurt of mankind; it is always uplifting, ennobling.

Gounod, snother great composer, wrote to Massenet in 1875:
"My dear friend: Use your wings boldly and confide yourself without fear to the lofty regions where the lead of the earth does not reach the bird of heaven." And Massenet spread his wings, produced some 34 operas and choral works, besides numerous songs and orchestral scores, making him the typical French composer of the generation. "In the soul of every French composer there exists a little Massenet,"

It would be a fine thing for New York-for her character as well as her pleasure—if more of her people would come under the spell of this Wanamaker Auditorium and give themselves boldly to the influence

This Wanamaker Auditorium is in the heart of the Wanamaker Piano Salons. It is the people's Temple of Music, where without charge they may hear the best music, and enjoy it and be uplifted.

Here are given daily concerts (at present 2.30 in the afternoon) that rank with the best.

In addition to the great organ, here are heard the world's great pianos-the Chickering, the Schomacker, and the celebrated Knabe.

The Wanamaker Auditorium is maintained frankly for the purpose of getting more people interested in music—otherwise it would not be a part of our business and could not be justified in a store.

It is purely educational, but it is none the less enjoyable for that reason.

We want to sell you a Piano

We will be doing you a service in selling you a piano. You will thank us many times over for bringing the joy of a piano into your home.

We will sell you a player-piano

if we can, for then you will have two pianos in one-one that even a child can play (with the inside player) and a regular piano that a Paderewski would delight in playing.

In a few years all pianos will be player-pianos, and if you get a player-piano now you will save the trouble and expense of exchanging later-for exchange you

We are in a position to sell you the piano or playerpiano that best suits your individual needs because we have on our floors more instruments-with a wider range of choice than any other piano store.

And you are sure of getting the best instrument your money will buy-for John Wanamaker's never has and never will trade on its reputation to sell anything unworthy.

A piano is easy to buy here---

in another sense-for a small first payment brings it into your home, and the balance may be paid in small sums while your family is enjoying the music.

To show the wonderful variety of pianos and player-pianos each the best in its class we publish this list of instruments we have to offer, and invite you to do us the honor to try and hear them, at your leisure tomorrow, if possible.
